Advances Up to $26 Per Hundred To Be Made—Graders Named For Districts

Announcement of the loan values on the various grades of burley tobacco, as fixed by Louisville bankers in connection with tobacco experts of that city some time ago was announced Wednesday by Director of Warehouses Ralph M. Barker at a meeting of the warehouse managers and their associates in the ball room of the Phoenix Hotel and at which every warehouse in the district except two were represented. In the case of the two the managers were ill. Vernon Leer attended from Richmond.

The loan values on each hundred pounds, as announced by Director Barker are the amount that will be advanced to growers on the delivery of their crops to the association warehouses. These values range from $1 a hundred for the poorest grade of flyings to $25 a hundred for cigarette wrapper.

The loan values by grades follow:

TW-1, $20; TW-2, $17.

CG, $9.

DG, $7.

Every warehouse was given a number and later the same thing was done in connection with the prizing plants.

The warehousemen were instructed not to mix the 1920 crop with that of 1921, but to receive it, grade it and keep it separate.

It was made plain that houses were not to send baskets from one house to another. If hogsheads are needed, Director Barker said, they will be supplied the grower at cost, the expense to be returned to him when he returns the hogshead. Needed supplies are to be bought by warehousemen from their local dealers. All baskets are to be numbered.

Director Barker made it plain that the managers are to be in charge of their houses but instructed them to see that no men who had tobacco and refused to pool it are given employment with the association. He said he felt that the association should employ only the men who helped to make it a success. He cautioned the warehousemen to be courteous and patient with all growers and assured them that they had no "soft snap."

"You're employed by these farmers," he said, "and I want you to reflect, when you are tempted to get fresh with one of them, that you're getting fresh with your boss."

President Stone, at the meeting of graders, announced the appointment of graders in this section:

Pool Protected By Contract As Well As By Law

Ample protection against the sale of the pooled crops by those seeking to "welch" on their agreement is given not only by the marketing contract signed by the growers, but by the Bingham co-operative marketing act recently made a law by the Kentucky legislature, according to a statement given out by Col. Joseph Passonneau, chief of the field service division of the Burley Tobacco Growers' Co-operative Association, at Lexington.

Besides the provision of the Bingham law, which provides a penalty for warehousemen who may induce growers to breach their contracts by the sale of pooled tobacco over their floors, Col. Passonneau said that there are two or three paragraphs of the Bingham co-operative marketing law which should be of particular interest to the members of the Burley Tobacco Growers 'Co-operative Marketing Association.

Discussing the provisions of the new law in this respect, Col. Passonneau said:

Paragraph C, Section 18, says that "in any action upon the marketing agreement it shall be conclusively presumed that a landowner or landlord or leasor is able to control the delivery of tobacco produced on his land by tenants or others." That clause of the co-operative law was intended to enforce Paragraph A, Section 13, of the marketing agreement, which says that "the agreement shall be binding upon the grower as long as he produces tobacco directly or indirectly, or has the legal right to exercise any control of any commercial tobacco or any interest therein as a producer or landlord during the term of the contract."

Neither the co-operative marketing law nor the contract will be construed as meaning that in all cases landlords this year are expected to control the delivery of the tobacco of their tenants. It is presumed that at the time the contracts were signed most landlords had contracts for the year 1921 with their tenants to the effect that the tenants should control the sale of one-half of the tobacco. But Section 13 of the marketing agreement and Paragraph C, Section 18, of the marketing law will apply in all cases beginning in 1922.

Landlords, in making new contracts with their tenants, therefore, should keep in mind these two provisions and write their contracts with their tenants in a way that will enable them to sell all of the tobacco themselves and divide the proceeds with their tenants.

Paragraph B, Section 18, of the new law, provides that "in the event of any breach or threatened breach of the marketing contract by a member, the association shall be entitled to an injunction to prevent a further breach of the contract and to a decree of specific performance."

The law further states that in any such action, liquidated damages shall be enforced as such, and that they shall not be regarded as penalties. This last clause explaining the application of the term "liquidated damages," is intended to enforce Section 18 of the marketing agreement, which provides that in case a suit is brought against a member to enforce the provisions of the contract, such member will pay liquidatem damages to the association to the extent of five cents per pound on all tobacco which he may have sold prior to the granting of an injunction by the court.

Further, the contract states that "if the association brings any action whatsoever by reason of a breach or threatened breach, the grower agrees to pay to the association all costs of court, costs for bonds and otherwise, expenses of travel and all expenses arising out of or caused by the litigation, and any reasonable attorney's fee expended or incurred by it in such proceedings.

Consequently, if a grower breaks his contract, he cannot escape by merely paying five cents per pound as liquidated damages, but must pay, in addition, all costs of court, including a reasonable attorney's fee.

COX HITS NAIL ON THE HEAD AGAIN

Dayton, Ohio, Jan. 26—James M. Cox, democratic candidate for Presidnet in 1920, and former governor of Ohio, last night told democrats gathered here at a Jackson Day banquet that their party stands just where it did "when the votes were counted," and is "ready for the next fight." Public opinion, he declared, has "steadily borne the destiny of America nearer each day to the seat of the League of Nations at Geneva."

In his first public address since the campaign of 1920, Mr. Cox assailed the policies of the present administration, condemned the work of the Washington armament conference and declared that America had refused to accept world leadership and that financial depression was due to the "treachery of Lodgeism." Thousands of republicans, he declared, now realize that the leaders of party in the making of policy * * have profaned republican history by forsaking the soul of Abraham Lincoln for the spleen of Henry Cabot Lodge.

Woodcock, bishop of the Episcopal Diocese of Kentucky, at the opening session of the diocese's 94th annual convention here. "Many changes are rife in the present day world," the bishop declared in his address, "and we seem to have come to the cross roads in civilization and Christianity."

WILLIAM WALLACE TO HOLD HIS SEAT

Senate Committee Decides Young Republican Has Residence In Richmond

Frankfort, Ky., Jan. 26—Wm. Wallace, republican, of Richmond will retain his seat in the Kentucky Senate as the duly elected Senator from the 29th district, and J. H. Johnson, republican, of Breathitt county, will be unseated by Bryce Cundiff, democrat, Jackson, as the Representative from the Breathitt-Lee district, if the Senate and House adopt reports to be made Thursday by the committees investigating the contests.

Senator Frank E. Daugherty said Wednesday night that the Senate Contest Committee will report unanimously in favor of Wallace, over the defeated democratic candidate, R. C. Oldham, also of Richmond.

On the first count, that Senator Wallace had not established a legal residence in the district, the committee report says that Mr. Wallace had established both a legal and an actual residence in Richmond. On the second count the committee held that the fact that Mr. Wallace had been judge advocate general did not disqualify him.

The vote of the special House committee investigating the Breathitt-Lee contest was 5 to 3 to unseat Johnson. The vote was taken strictly on party lines. Chairman H. C. Duffy said that the report is based on precincts mentioned in the contest brief. Any one of the three or four precincts, if thrown out, would unseat Mr. Johnson, Representative Duffy declared.

Iowa Not Burning Much Corn

(By Associated Press)

Ames, Iowa, Jan. 26—Iowa farmers are not burning corn this winter, except to a very small extent. For the greater part, such corn as has been burned has been moldy or inferior corn, not suitable for feeding or marketing, and that has always been done more or less. It is the judgment of men who are in close touch with the situation that neither the supply of corn in Iowa nor the market price has been appreciably affected by the very limited corn burning in the state.

MELLON STILL OPPOSES ANY SOLDIER BONUS

(By Associated Press)

Washington, Jan. 26—Imposition of taxes upon necessities as a means of raising funds for payment of the soldier bonus is considered inadvisable by Secretary Mellon, it was indicated at the Treasury today in discussion of the bonus question. The belief was expressed that any additional taxes upon such necessities as tea, coffee, or sugar would be impractical. Some attention was given to the possibility of further taxation upon tobacco but the Treasury is understood to believe this commodity is almost within the lossary classification Meanwhile Secretary Mellon's opposition to any bonus at all is apaprently unchanged.

Funeral Of Pope Held At Rome Thursday Amidst Solemn and Impressive Ceremony

(By Associated Press)

Rome, Jan. 26—Pope Benedict was entombed with solemn ceremony this afternoon. The body, enclosed in three caskets, and dressed in the pontifical robes, lies in a crypt under the great basilica of St. Peters' to the right of the entrance.

The historical ritual was witnessed only by membres of the nessed only by members of the pontifical household, the papal nobility and diplomats accredited to the Vatican.

Sonorous music, imposing guards in gorgeous uniforms and others in array of mediaeval times, high churchmen in flowing robes and bearing torches, marked the procession of the cortege with the body from one chapel to another, where the solemn ceremony of absolution took place and finally the cypress coffin on which the body rested, was sealed and placed in a lead casket and both were deposited in a hardwood casket, both being sealed. The casket then was transferred to the crypt the last absolution given and Benedict XV was left to rest beneath the flagstones which are trod by thousands of pilgrims annually.

$75,000 MORE IN LOANS FOR FARMERS

Additional loans to the farmers of Madison county to the amount of about $75,000 have been approved by the Federal Land Bank of Louisville, according to news received here by L. W. Dunbar, secretary of the Madison Association. Blank applications have been filled out and sent in and word has come that applications to about the amount named above have been approved. This will be good news to many as the loans are for long terms and at low interest, and will put a lot of money into circulation in this community.

MULLINS SAYS PLENTY BAPTIST PREACHERS

(By Associated Press)

Louisville, Ky., Jan. 26—That the "recent discussion in the public press of an insufficient supply of preachers in all denominations is not true of the Southern Baptists," was asserted today by the Rev. Dr. E. Y. Mullins, president of the Southern Baptist Theologican Seminary.

The seminary Dr. Mullins heads this semester, has enrolled the largest number of Bible students ever to be gathered in one such school in one term, he said. The enrollment for the spring term of 1922 is 404 students. The average in all similar institutions of all denominations, he said, was approximately 75 to 80 students.

Dr. Mullins declined to express on opinion as to why the number of young men entering the ministry has declined in recent years. The Baptist semenary is one of the oldest schools of its kind in the United States, it is said, and numbers among its graduates men who have become famous as ministers and in other walks of life.

"I did not dare take a whole cigar for fear he would discover the loss, and I want my purchase to be a complete surprise." It couldn't be done.

Wallace's Title Clear

A majority of the members of the Senate committee which heard the Wallace-Oldham contest were Democrats. By their votes Senator Wallace retains his seat as senator from this district. At the time of the filing of this contest several well known republicans here were heard to say that the "Democrats of the Legislature are usually so mean they would do anything" and therefore might unseat Senator Wallace. Perhaps this verdict by the Democratic committee which will be upheld by the Democratic Senate, may change the views of some of these bitter partisans. It completely refutes such calumny and goes to prove that the Democrats of the Legislature are endeavoring to do what is right as they see it, reardless of partisan considerations.

The Daily Register has no fault to find with their judgment in this case, and knew from the beginning that this case would be judged strictly on its merits and without the slightest partisan or political bias. Outside of his politics, Senator Wallace suits it as well as any man who could be named to represent the district at Frankfort. He is a fine, upstanding young man, with brilliant prospects before him, which may be augmented considerably by daily contact for a couple of months with the high-class, forward-looking members o the State Senate—a majority of them Democrats, who voted to keep him with them. Senator Wallace has made a good impression among them and is highly esteemed and regarded by all.

Blackjack Tells Of Visit Of Foiled Whisky Thieves

Bardstown, Jan. 26—A dropped black-jack was evidence that bandits again had visited the Tom Moore distillery. The purpose of the owner of the weapon to strike down one of the sentries was evident, as it was in the path close to one of the posts. It is believed the vigilance of the guards made the robbers despair and leave.

Mrs. Linton Tells How Helpful Lydia E. Pinkham's Vegetable Compound is at This Period

Denver, Colorado.—"I have taken Lydia E. Pinkham's Vegetable Compound for seven years and I cannot tell you the good it has done me. It is good for young and old and I always keep a bottle of it in the house, for I am at that time of life when it calls for Lydia E. Pinkham's help. My husband saw your ad. in the papers and said 'You have taken everything you can think of, now I want you to take Lydia E. Pinkham's Vegetable Compound!' So I let him get it, and I soon felt better and he told me 'I want you to take about six bottles.' So I did and I keep house and do all my own work and work out by the day and feel fine now. I tell every one about the Vegetable Compound, for so many of my friends thought I would not get well."—Mrs. R. J. LINTON, 1850 West 33d Avenue, Denver, Colorado.

After reading letters like the above, and we are constantly publishing them, why should any woman hesitate to take Lydia E. Pinkham's Vegetable Compound if she is in need of help? It brings relief where other medicines fail.

AT THE MOVIES

Fine Gowns Worn In "Forbidden Fruit"

Gowns of surpassing beauty are worn in Cecil B. DeMille's production "Forbidden Fruit," at local theatres next Tuesday and Wednesday. Agnes Ayres, Kathryn Williams and Shannon Day play the leading feminine roles, and the major portion of the gowns, negligees and other appurtenances of my lady's wardrobe were designed for them.

Perhaps the most striking gown is an ermine and sable negligee which Miss Ayres wears through much of the action. All of the creations are of the ultra-modern type and are the work of Clare West. Of another type are the gorgeous costumes of another period designed by Theodore Kosloff and executed by Miss West for the Cinderella vision which forms an important part of the story.

A Fine Show Coming

A great show will be at the opera house starting Monday evening, January 30, the name every one knows and Charley Robinson will appear himself together with his Parisian Flirts. There is no end of pretty costumes and scenery; electrical effects and twenty real handsome girls, that will send you home smiling. They will be here for two nights only.

Abe Elvove, of Paris, has gone to Russia to bring over his father and sisters, who wrote him they are starving.

MADISON MEETS CLARK HI HERE FRIDAY

The Madison Hi basketball teams, both boys and girls, will play the Clark County Hi teams from Winchester at the Madison gym Friday. The games are sure to be stiff affairs as the Clark county teams were champions of the Blue Grass in their respective sexes last year. The two schools have met before in basketball this year and the Madison boys won by a close margin, while the girls were beaten in their only game of the season. The Madison boys were lucky to get away with a victory over Clark County at Winchester, but feel confident that they can trounce the Clark outfit here at Richmond. The boys have improved a great deal sinre the game with Clark County. They have become much faster at passing which helps more to win a basketball game than anything else. Coach Lassiter has been working hard to instill more fighting spirit in the Madison team. He has also endeavored to get some of his players to give up some individual ball that they have been playing to some extent. Once this has the upper hand it is hard to overcome, but Coach Lassiter has succeeded to some extent in breaking it up.

Reeves is slated to start at center, Talton and Harry Stone at forwards and Hurst and Clouse at guards. This team has rounded into good form and will give all they have to the fans Friday. Fast work is expected to be seen Friday night, and the fans are not to be disappointed if work can give this to them. Hard practices have been held in both the boys' and girls' camps this week in preparation for the Clark battles.

The girls with five victories to their credit and only one defeat, that at the hands of the Clark girls, are going to fight hard to bring victory to Madison. They are out after revenge, the visiting girls being the only ones to defeat them this season. Miss Yates at center, Misses Bennett and Blanton at forwards and Misses D. Terrill and Myers at guards are the ones expected to start against Clark County girls. The same old fighting spirit that has carried the Madison girls thru the season so far with only one defeat has not left them and they will give the best they have against Clark County Hi. Last Friday they were victorious over Winchester Hi girls, who had the go extra times before losing to the Clark County girls. Both games will be hard ones for the locals and battles between ancient rivals.

EVANGELINE BOOTH SAYS WOMEN CHEAT

(By Associated Press)

San Francisco, Jan. 26—Women who powder their noses, touch up their hair with a bit of golden glint or add the bloom of youth to their cheeks are positively dishonest, Evangeline Booth, national commander of the Salvation Army, declared while here recently.

"Women use "makeup" to deceive, Miss Booth said. A wo- has no right to fool the world, she added. The woman with blazing cheeks, indigo eyes and carroty hair is a cheat.

Many divorces are caused by the fact that women have attempted to deceive their husbands regarding their appearance she thinks. Man, she added, wants women as nature intended they should be.

The enormous sale of cosmetics in the United States is a disgrace to the country, Miss Booth feels. "If our young women of today would only take the money they use for paint and powder, and buy milk for the poor, starving babies of the world, they wouldn't any 'artifice to make themselves attractive," she said. "In their cheeks would be the hue of joy that comes from the heart and in their eyes the light that comes only from giving service to world."

Miss Booth thinks moderation and utility should be the guide when it comes to clothes. Following the style of the Salvation Army, she says, skirts shoudl be fiye or six inches above the ground.

"Too many women today destroy their true womanliness by immodest dressing and they have only themselves to blame when their characters are questioned.'
